

BESTIALITY

SEERSGATE SAYS:

What exactly is bestiality? It's when a human has sexual encounters with an animal. What kind of attention would a human crave to have sexual encounters with an animal? What will draw a person into releasing their sexual cravings into a beast that cannot have a way to join them in the married way? Who gave any human permission to make them take their judgments and twisted sexual behavior to pursue them? I will make it plain that God I AM is not pleased with it—the joining of a human under sexual release with an animal.

They can say it feels good, would that make it an acceptable add-on in the pleasures you experience? "They have the organs needed for enjoyment, so why keep me from that added pleasure?" That's what a person under heavy bondage would wonder. But I have experiential proof from others taking that into their planning way. I have watched movies of others engaging in sex with animals. I have heard the stories of how others have given their bodies over to unnatural ways of sexual favors.

And after the learning of others in their ways of sexual plans, there, it also builds up shame in your body for battles of sexual lust. Once the cravings lead in your body, you will open the doorway for greater wanting to sleep with the various ones of the lower way. God did not intend for the human to have sex with any animal, for God made us in His image. And we should walk in perfect unity with God's Spirit.

What will sex with an animal bring? Sex with an animal will bring various levels of demon influences. You will have major demon manifestations within your body when you sync it with an animal. There are spiritual doorways that open when in this sin. These doorways will permit demons to enter you and bring torment within.

The only way to be released would be to close all open spiritual doors with cleansing in King Jesus's blood by asking God to set you free. Not only that, but sex with an animal will also bring many diseases and unclean details through this form of engagement.

Sex with an animal brings natural connections that yoke you. Under a prison, you will build a bridge with others. You will not be able to see enjoyment only through the natural form of sex with a human until that bondage comes off your body. Being set free will take a powerful God, bringing that release deep within.

Do not watch any videos of this sinful way of living. If you are willing to enter the seeing way of engagement, you will truly gain many demons without participating in the act of bestiality. You will take in demons just through watching a movie that contains this sin-filled way.

Bestiality will lead to different versions of sexual sin. And with each layer, your way will turn over into more ways of seeing, from a demon's heart, through demonic levels of lust-filled behavior. Come and drink from King Jesus. Tell Him how you have taken a turn within to sin in your body, which should be holy only unto the Lord, the Great King Jesus.

Your way must get rid of the old way. By cleaning your body, soul, and spirit, you will return to the Lord's camp, by the power of the Great Way King Jesus.

KING JESUS GIVES HIS WILL:

No one must watch such movies that contain this deadly spiritual sin. It starts with soft porn and builds into lust-filled acts that take on bodily shifts under various levels of demon influences. Stay a holy way. Separate from unclean power living under sin. Confess your lust-filled ways. I will come and cleanse you.
