

# A CAT FIGURE

Cave Training, Kodiak, Alaska

## Stage One / Entry Four

Today was a different day of training. My training is building each day. The training lesson spiritually prepares me to see various spirit dealings. Today, other demons showed up—new demons. There is a new way to spiritually see the details with my spirit and take in the demon's nature.

The first demon that stood in the entryway was terrifying sounding. I couldn't see the demon with my spirit. I could only hear its voice. I would assume it was of great rank in the spirit as the others, but I had no way to drink this if the Great Holy Spirit did not reveal it to me.

The only way to know the real way was to drink from the Great Holy Spirit. I waited for Yahweh to reveal His will to me concerning this detail. It was as if there were blindfolds in every level, and I could not pick up a plan at all. But Yahweh began to reveal details concerning this demon. As I stood there, I was able to spiritually see the demon.

I learned that there are two different ways to spiritually "see." One way to see angels and demons is within my spirit, as with a vision or dream. I could see the demon with my spiritual seeing, as revealed with the Great Holy Spirit's help. The other is a plan that would enable me to see the spirit realm while awake, where Yahweh has the spirit materialize, appearing as a natural element.

This way of materialization is similar to when Yahweh visited Abraham (see Genesis 18:1-15). But will seeing a spirit materialize make a difference in how to deal with them? More details will be revealed to gauge a demon's movement and the angels who protect me each day. So, this way of seeing with spiritual vision would greatly benefit the general given a plan to lead a great war.

As I learned of the demon's nature, its shape became apparent. The demon moved like a cat figure as small as a household pet yet spoke as if it were a dragon. What a great deception, getting people to move in fear, thinking they are under a vicious moving to attack them. This demon receives orders to push people to deeper demon influence such as fear and other panic movements. This kitty-cat-sized demon would harass them—to bring them to a place where they would move in fear and open an entryway for demon influences to have a ruling way within you.

You must be aware of the different ways to move to embrace a plan presented by a demon. I was instructed to give the demon the order from the Great Holy Spirit to go where King Jesus would send it. It spoke with retaliation. It despised being sent there in this way, yet it had to obey. It submitted to the authority given to this servant and a plan that would make it submit to the name of King Jesus. That is where the authority is given for me to release into the demon's way.

## **PRIDE**

But there were others to come and bring their plan, hoping to move against me in a way to destroy me. There was a demon that would make you think twice about taking in pride or self-exaltation.

While waiting for the next demon, a colossal creature stood in the doorway entrance. It could not come any closer. I looked at the sheer moving of size in a spiritual vision and was drinking in the will of the Great Holy Spirit before speaking an instruction for it to take to move in.

This demon just stood there. The Great Holy Spirit gave me the demon's name, but the name was unexpected. This demon, named *Pride*, maintained the will to move into bringing any form of will or exaltation in spiritual dealings against the moving and will of

the Great King Jesus. The demon, named Pride, was the root influence that would bring a person to move in various actions against the Great King Jesus.

There stood the demon who moved in the nature of pride. This demon infiltrated churches, businesses, establishments, governments—all so the human's will would lead in their way, yet this demon could move in other ways. And the Great Holy Spirit was making it clear that this root of pride is the opposite of the root of faith needed to please the Great King Jesus. This demon would easily influence people's lives where there is a praise in effect to place that person in the plan where they are viewed as a lowercase god, whether in their eyes or in the eyes of a person who would move to admire them in a way displeasing to the Great King Jesus.

People place movie stars on pedestals, and people pride themselves in knowing them, putting that influencer above Yahweh, feeding pride by association.

The Great Holy Spirit strongly warned me against this demon. Many will view this servant in a displeasing way to the Great King, where they would raise me to an unacceptable position. I cannot have any praises directed to me, nor do I want it. All must know there is only one God, and His name is King Jesus. Move only to serve Him, not a human who is just a vessel for the Great King to move through. Never forget this, for many have fallen due to walking in the nature that comes from this demon.

I waited and drank the will of the Great Holy Spirit. After the Great Holy Spirit gave His instructions to drink, I then waited to know more about the detail in the will as to the demon's plan. The Great Holy Spirit gave me the instructions to carry out, and I did the Great King's plan. This demon shifted in shape to a puny demon. I noted the difference. The Lord told me to view this demon based on his appearance at the shift. I had to see that no other plan is more significant than what Yahweh gives. The demon was taken away to a place in the dwelling where King Jesus willed.

## **SPIRIT OF CONFUSION**

There was a demon that brought major distractions during most of the training this evening. My thoughts were greatly affected, and I struggled to focus and drink from the Great King Jesus. I noticed my thoughts were cloudy as we were dealing with another demon. The Great Holy Spirit brought the demon into view to reveal its nature as a *spirit of confusion*. This demon moved to bring a mental fog over a person's judgment to move them not to complete a duty given to drink from the Great King Jesus.

The demon was very annoying. The *spirit of confusion* was able to interfere, yet it would not be able to stop me from proceeding. The Great Holy Spirit told me to be aware of the demon of confusion: It will try to move against me in different meetings, to keep me from doing the will to drink at that moment from the Great King Jesus.

I used a different approach in dealing with this demon. It was noted that I declared, at the leading of the Great Holy Spirit, that the demon did not have the authority to move into the territory to interfere with my mind and that I was the temple of the Lord Most High, where my body belonged to the Great King. Yahweh put the demon in its place, where he would be in a submitted stance and could no longer move to do confusion in any way, shape, or form. Then the demon was told to go where the Great King Jesus would will.

## **DECAYING DEMON**

Another demon to approach was very different. This demon moved to have flies swarming around it and was as dead flesh. This demon would move into a person's way to bring various stages of death into the body through outlets such as natural diseases and decay. The demon was displaying a dying state as its nature.

This training notes the nature of the demon, how it brings a way of death within and uses disease to complete this moving that would bring the person to the final state, which is

death, in the natural. The person who would take on influences from this demon would experience various stages of dying of their tissues or the way to enter the death phase. This way of demon influence is not for all terminally ill patients going through their last days in this earthly way of living.

Now, after the demons were dealt with, Yahweh gave me a new teaching. He began to teach me concerning feeling the air for the angels in the room. There were angels with me, but I struggled to feel them with my hands as I moved through the place due to this training being a new tool. The Great Holy Spirit assured me that I would learn this critical skill to walk throughout the room and feel the angels, as well as the demons, moving in the way.

Feeling the air would be a handy tool to master, just as learning to hear the voice of the Great Holy Spirit. As each day moves along, Yahweh brings even deeper ways to drink. Until next time, I pray that you drink from the wisdom and strength given to you through the Great King Jesus.
