

# CATERPILLAR-LOOKING DEMON

Cave Training, Kodiak, Alaska

## Stage One / Entry Six

Today's lesson was a continuation of learning to feel the air for angels. It is still a struggle. The Great Holy Spirit continues to speak reassurance that I will indeed move in this tool to help in the plan that is about to unfold. The air felt familiar as any, where nothing was visible to me, nor could I have any sense to notice any moving from the unseen way. I long to move in this tool, just as the others the Great Holy Spirit has placed within me. Time will give me moments to practice this skill so that it will be like *second nature*. There is so much to learn in moving in the supernatural. The Great Holy Spirit is teaching me a great deal in each detail.

After that moment of practicing this tool, there was a greatly sized demon revealed. Most would think a demon would look like a creature in a horror event and would not consider that these spirits could take up shapes as creatures on Earth. There was a vision revealed to my spirit that showed this demon in the form of a bug.

The demon bug resembled a caterpillar the size of a large commercial vehicle. It looked unreal to be a bug that moved as a demon. The purpose of this demon was to destroy the crop in the plan for a great harvest. These caterpillar demons would eat at the leaves and bring destruction due to a lack of maintenance for the field.

The plants needed a good shower to wash off the dirt and the bugs that were moving to destroy what was growing. Something needed to be in the great way to keep the bugs from destroying what would bring in a great harvest of souls for King Jesus. There needed to be a great move of the Great Holy Spirit, where His rain was given. It would take the rain of the Great Holy Spirit to move to cleanse the people and remove the bugs that have eaten the good to embrace.

There must be people who will drink this great transforming power and fire from the Great King. The people will also need the Great Holy Spirit to bring a release to the will to embrace. The Great Holy Spirit is the source of power, fire, and the cleansing rain. This is what will bring change in great movings of transforming details within the person who is rained on.

This is a plan in this season known as Rain that heals, to bring this great transforming power and fire, to bring healing in the whole person—body, soul, and spirit. Fire will come, but so will rain. And this rain is all-consuming to the point where those who come in contact with it will have to drink it or resist the movement of God in this major plan.

This rain is able to move against the demon influences. It will wash against dirt and those details that would keep you dwelling in hurt and pain, sickness, and demon influences. The rain's effects will bring a moving to restore the withered crop due to harsh conditions. The rain will bring peace through the Great King Jesus. The rain will bring joy. The rain will bring a Kingdom moving of living that is only possible through the Great Holy Spirit. The Kingdom way to expand will need to move in the Kingdom rain from the Great Holy Spirit.

We cannot do the work to please the Great God Yahweh if we choose to move in human striving. We want the rain to prepare the ground as well as maintain it. The fire of God will purify. The fire and the rain are both natures within the Great Holy Spirit. Yahweh's rain will move to keep the bugs from eating the great harvest about to be reaped.

Now, once the people drink, they will need continual drinking. And this continual drinking will bring a way to continue to give the rain and great transforming power and fire based on the leading of the Great King Jesus. Drink it and be filled with fire and water from the Great Holy Spirit. Take a spiritual rain shower in the presence of the Great King. Let Him bring renewal, restoration, and redemption.

The Great Holy Spirit is moving to do the work given with this servant of the Lord Most High. Together, we will do the will of the Great King Jesus so that all will know that there is One True God and that His name is King Jesus. That is all to drink this day. Look to the Great King and expect great spiritual showers from the Great Holy Spirit.
