

LET'S GO DEEPER

Humble, Texas, USA

THE GREAT KING JESUS SAYS:

Servant, this church presents itself very well. They leave no stone unturned, but let's look even deeper into the full way. Let's look past the exterior. See what I see in this church building. I will show you deep details. I will show you what is really going on.

Taste it and look deeper. Taste it. Music is a great tool. Music is a great way to welcome Me. The flags show their mission; they think greater than their little building.

The world is waiting. The world is looking. The world is seeking a new way. It is that time for a shift in the atmosphere. It is that time for Me to break chains of darkness. It is time for a new way. It is that time for something new. It is that time, servant. Speak My will in all details. It is well-done in outward details. Let's look deep into spiritual details. Let's look.
